SKILLS

- ❖ **Programming Languages:** Python, PHP, HTML, CSS
- ❖ **Mobile App Development:** Android Studio (Kotlin)
- ❖ **Emerging Technologies:** Basic knowledge of Blockchain Technology,
- ❖ **Databases:** MySQL

EDUCATION

- ❖ MSc IN (CA&IT) | Ganpat University *SGPA: 8.29 (Jun 2024 – Apr 2026)*
- ❖ B.Sc. IN (PHYSICS) | HNGU University *CGPA: 6.26 (Jun-2019 – Apr-2022)*

EXPERIENCE

- ❖ **Intern | Tech Saksham (Virtual Internship)** *(Dec-2024 Jan-2025)*
 - Completed a **1-month virtual internship** focused on **Human Pose Estimation using Py**
 - Worked on real-time pose detection using **Python, OpenCV, and Media Pipe**
 - Built a mini project to track and visualize body landmarks using a webcam
 - Strengthened skills in **computer vision, real-time video processing,**

ACADEMIC PROJECTS

- ❖ **Real-Time Human Pose Estimation using Python**
 - Built a real-time pose detection system using Python, OpenCV, and Media Pipe
 - Detected and tracked body key points via webcam with skeleton overlay
 - Gained hands-on experience in computer vision and real-time video processing
 - Applied concepts of image processing, Python scripting, and visual feedback
 - GitHub: <https://github.com/SiddharthMali2001/AICTE-intership.git>
- ❖ **Restaurant Reservation System (Laravel Project)**
 - Developed a web app for table booking and cancellation using **Laravel** and **MySQL**
 - Implemented user authentication, form validation, and email notifications
 - Designed a responsive UI with **Blade templates** and **Bootstrap**
 - Applied MVC architecture and middleware for secure access control
 - GitHub: <https://github.com/SiddharthMali2001/Laravel-project.git>

ACHIEVEMENTS / HOBBIES

- Completed a virtual internship on Human Pose Estimation using Python under Tech Saksham
- Playing video games to enhance strategic thinking and problem-solving skills
- Watching tech tutorials and staying updated with new technologies
